Public Safety Building Presentation: by Captain Jim Monger

Police and Municipal Courts are in critical need of additional space. City Hall building is not up to seismic safety standards and doesn't have the security features required for a public safety facility.

The following points were given as follows:

- Griffith Drive facility was a temporary solution in 1986. Studies find the Beaverton Police facility inadequate and lagging behind other cities.
- In May 2013, City Council approved the move of City Hall to The Round. Now the goal is to consolidate services and remodel the Griffith Drive facility for Police, Court and Emergency Management Services.
- The City Council expects to place a bond measure on the November 2014 ballot, asking taxpayers to fund a remodel for a modern public safety building.
